

anykey

Über uns

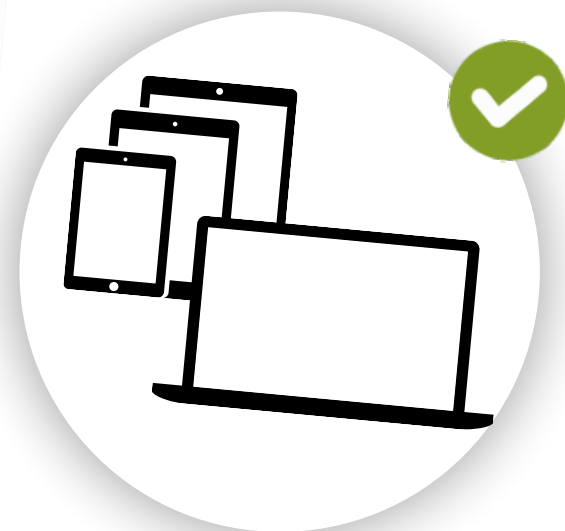

Die Firma anykey wurde im Jahr 2010 von Thomas Baumann und Tobias Linder gegründet mit dem Ziel, Kunden mit schlanken und effizienten Lösungen bei der digitalen Transformation zu unterstützen.

Von Anfang an stand der Lösungsgedanke im Zentrum. Wir wollen das Rad nicht für jedes Projekt neu erfinden, sondern mit viel Neugier und Schwarm-Intelligenz unsere optimal den Kundenbedürfnissen angepassten Cloud-Lösungen ständig weiterentwickeln und optimieren.

Unser Schwerpunkt liegt in der Betreuung von macOS- und iOS-Lösungen. Unser Team verfügt über ein grosses Knowhow und ist optimal geschult und vernetzt, um Ihre Organisation bei der Umsetzung von ICT-Projekten erfolgreich zu unterstützen.

3 Filialen
28 Mitarbeiter in der anykey Familie
90'000 Zentral verwaltete Endgeräte
4'200 Verwaltete WLAN Sender
17'000 Nextcloud Konten
80'000 Geräte im Web Filter

Da wir die gleichen Interessen und Herausforderungen haben, wäre es schön wenn wir uns vernetzen.

Ziel, der Erfahrungsaustausch und das gemeinsame Weiterkommen rund um OpenStack, Kubernetes as a Service oder Automatisierung.
